Product Features

Interior and exterior applications

Vertical and horizontal installation

Easily washable (flat surface)

Fast and easy installation

Economical

Reduced labor costs

Best Possible Value

Metal Mesa Panels are ideal for exterior and interior walls, ceiling, and storage applications. Most commonly used for commercial, industrial, and architectural applications. Mesa Panels are lightweight, and the profile provides symmetry. Available in lengths up to 26 feet long to help improve installation time.

Economical and easy installation for walls and ceilings.
