

TRIM AND FLASHING

Ability to form custom shapes
in a variety of materials, sizes and lengths.

Do the Job Quickly

Lenmak Exterior Innovations Inc. has an ability to form custom shapes in a variety of materials, sizes and lengths helps our customers limit waste and time on-site spent cutting to fit. Lean manufacturing allows us to make both custom and standard products on-demand to meet the needs of many types of customers – from residential siding or window and door contractors to commercial cladding and roofing to industrial builders and erectors.
